Professional Summary

Full Stack Developer with hands-on experience building and maintaining responsive web applications using **JavaScript (ES6+), React.js, Vue.js, Node.js, Express.js, REST APIs, Python, and MySQL**. Experienced in developing reusable frontend components, integrating RESTful APIs, implementing authentication and business workflows, designing relational database schemas, debugging full-stack applications, and optimizing API and database interactions.

Technical Skills

Programming Languages: JavaScript (ES6+), Python, SQL

Frontend: React.js, HTML5, CSS3, JavaScript, Vue.js, Responsive Design, UI/UX Development

Backend: Node.js, Express.js, REST APIs, API Integration

Databases: MongoDB, MySQL, PostgreSQL, Relational Databases

Work Experience

Site Guru Pvt. Ltd., Remote

Feb 2026 - Mar 2026

Full Stack Developer

- Built **3+ full-stack applications from scratch**, translating client requirements into application architecture, database schemas, APIs, and responsive UI.
- Developed **frontend, backend, admin dashboards, and role-based dashboards**, implementing role-based authorization and access control.
- Collaborated directly with **clients and Project Managers** to understand requirements, implement changes, and deliver features aligned with business needs.

Site Guru Pvt. Ltd., Remote

July 2025 - Jan 2026

Full Stack Developer Intern

- Developed frontend and backend features using **Vue.js, Vuetify, JavaScript, Node.js, REST APIs, and MySQL**.
- Built and integrated **RESTful APIs** and database functionality for application workflows.
- Collaborated with Project Managers and clients to understand requirements and implement requested features and changes.
- Participated in testing, debugging, and performance optimization of backend applications.

Project Work

Qwikmall – E-Commerce Website

[Project Link](#)

- Built QwikMall, a **full-stack e-commerce** platform with features including product browsing, cart management, check-out, order processing, and authentication.
- Designed and developed **REST APIs** for user authentication, product listing, filtering, and cart updates.
- Implemented a database schema with **10+ tables** for users, products, categories, cart, orders, payments, reviews, and addresses to support scalable e-commerce operations.
- React.js, JavaScript, HTML, CSS, Python, Flask, REST APIs, MySQL.

Bravo Cleaning Services – Service Booking Web Application

[Project Link](#)

- Developed a fully responsive **7+ page** service-based web application with **20+ reusable UI components**, ensuring a consistent experience across desktop, tablet, and mobile devices.
- Built interactive **booking, contact, and work-with-us forms** to capture customer details, service requirements, preferred schedules, and contact information.
- Developed an **admin dashboard** to manage and review customer booking submissions, supporting efficient booking management and administrative workflows.
- JavaScript (ES6+), Node.js, CSS3, Responsive Web Design, UI/UX.

Education

Dayalbagh Educational Institute, Agra

Aug 2020- May 2024

B.Tech in Electrical and Computer Science

Relevant Coursework: Database Management Systems, Data Structures and Algorithms, Object-Oriented Programming
